THE MORMONS IN CONFERENCE.

On Friday last the Mormons commenced their forty-fourth Confer- MANNING & DUCK, case in the town of St. George, in the southern part of Utah. About two thousand Mormons were in attendance, and Brigham Young presided. The occasion of the meeting troceries, at St. George was the dedication of a new tabernacle there. After the transaction of some formul business, the Conference adjourned to meet in Sat Lake City on the 6th of May. The proceedings of the adjourned Conference will be read with interest on account of the revalations connected with the Mountain Meadows massacre. Recent arrivals from GOPPEN. Utah represent that every day brings fresh conflicts between the Mormon system and the Gentile population. The Gentiles are naturally aggressive against the ecclesissticism which permeates the manicipal and county governments, and even business relations. The general body of the Mormons are anxious to treat the new-comers with respect, but the Mormon hierarchy intervenes to prevent any intercourse. Brig-ham Young is in his 77th year. In the natural order of events he can not be expected to live much longer. All parties in Utah look forward to his decease as the culminating point in affairs. It is not expected that AGRICULTURAL IMPLEMENTS any future President of the Church can wield the influence and power which has cuaracterized his regime. basis into Utah, and for thirty years has received implicit obedience. But the rising generation are not so disposed to obey the Characteristics. their fathers. It also requires all Brigham's tact and prestige to prevent some of the higher officials from quarreling among themselves. With his death there will be no such restraining influence. With the death of Brigham Young, if not before, Mormohism will soon probably cease to exist, except as a religious sect.-S. F. Bulletin.

Registered Letters.

The system of registering letters for transmission by mail is not generally understood, and in explanation of the matter the following from the Boston Commercial Bulle'in is of interest:

"The advantages of registering letters arise from the facts that such letters are more carefully looked after by the Postoffice Department than are unregistered ones. A full and most particular record of them is kept as they pass from point to point on their journey to their final destination. On their arrival at the destined Postoffice the sences is at once formally notified that a valua-ble registered letter awaits him at the office, and to that office he must go and sign a receipt for his letter. This receipt is returned to the sender of this letter, who has thus placed in his hands a voucher that his lett z has been duly received. Registered letters for all the great business cen-tres are always sent in a special pouch in the hands of a special mes senger, and are, of course, placed upon rather a more satisfactory footing than are those mailed to out of the way places. When destined for the smaller place special pouches till they got to the epecial point nearest to their place of destination, and are thence sent to greatly reduced rates. tueir travels, as carefully watched and protected as is possible. But though the Postoffice Department takes all this pains with registered letters, it assumes no more responsi-bility for the registered letter than for the unregistered. It undertakes to transmit them with the utmost skill and perseverance; but if not final y found it will not pay for them.

FISH FATALITY.

We have called attention several times to the great fatality which threatens to thin out if not entirely destroy the fish in the Truckee. More tons than we would care to say probably be discussed in the Cabinet have already died from this scourge, meeting to-morrow. As the Demand still nothing is being done to ocracy has positively refused to apascertain the cause and effect a rem- propriate another dollar for the army edy. A Fish Commissioner was appointed recently, and we hope he will do his duty in this matter and discover, is possible, the reason for it. He has power, we think, to prevent the wholesale slaughter of fishprovided he can discover the cause. Let Mr. Parker attend to this matter many Ring, receiving at first ten and do all that lays in his power to stay this wholesale destruction.

Compan).

The organization of the proposed shipping company has been further perfected by the drafting and subscribing of articles of incorporation. The name of the corporation is "The California Fruit and Mea: Snipping Company." Term of incorporation, fifty years. Capital stock, \$500,000, in fifty thousand shares. The purposes for which the Company was formed are: to deal in all kinds of fruit, meat and fish, and produce of every character, and general merchandise, as factor and principal; together with doing business of transportation, forwarding and commission agency. Principal place of business, San Francisco.

Ten thousand four hundred and eighty shares of the capital stock have been subscribed for, representing \$104,800.

The following officers have been chosen: President, John Cashin, of Novada City; Vice President, J. Earl, of Oakland; Secretary, B. B. Norton, of Reno; Treasurer, J. D. Blancher, of San Francisco.

A Committee on Audit ng and Finance has been appointed, consisting of Wm. Johnson, of Riel land; Chas. Grove, of Vallejo; and W. S. Bailey, of Virginia City.

New York, April 16.—A Times the company have all the live stock they want. Sheep men in the San Joaquin Valley are also willing to contribute more sheep than the company can reasonably expect to ship within the year. One man writes that he has not sold a wether for three years; has plenty of sheep but no money. It is to be hoped that this enterprise will increase his bank account. It is likely that the first slaughter-house for sheep will be built at Merced. The company will have their work well in hand in a few days.

MOST IMPORTANT ITEMS IN YESTERDAY'S DISPATCHES.

How to Avert the Extra Se lon. Washington, April 16.-The propesition to disband about fourfifths of the regular army, and to avoid the necessity of an extra seasion of Congress, is favorably regarded in Cabinet circles, and is gaining favor. The question will without actaching certain restrictions, it is urged that an extra session would be useless.

Oakey Hull's Dhildends.

New York, April 15.-Tweed,s friends declare that Oakey Hall was the organizing brain of the Tamand subsequently five per cent. as his share; that this was paid through Watson, now dead; but the fact is California Fruit and Meat Shipping provable by Woodward, if not by Tweed also.

The Speakership.

WASHINGTON, April 16,-The Democratio Congressional Committee here have advices from every Southern State and District in regard to coming contest for Speaker. There is not a sign or probability of a defection in any quarter, and all allegations to the effect of a possible coalition with the Administration to sceure a Republican Speaker are de nied as absolutely unfounded. Alexander M. Stephens, whose health is gradually improving, announces his intention to be carried to the House to vote for Speaker, and the Democrats confidently claim ten and per haps twelve as their majority.

Some Southern Republicans continue to threaten to bolt their caucus nomination, but it is expected that all will fall into line eventually.

Troops to be withdrawn. Washington, April 16.-The commission will recommend the withdrawal of the troops from the State House, and the last vestage of Pack ard's government will disappear without violence or excitement. The consolidated Legislature will elect a conservative Senator and instruct affairs, and is reported as frankly him to support the policy of the Administration, unless the Republican's and Nichol's governments. Mir-We take pleasure in announcing to the ladies of Reno and vicinity that we have now received our entire Spring stock, which will be found upon examination to be most complete in every department, having been selected with the greatest care and taste. We can eafely sesset, without fear of contradiction, that ladies can now make their purchases at east establishment cheaper than the same goods can be purchased from eav San Francisco house. Our stock is so varied and extensive that it would be ussless to attempt to enumerate it, therefore we cordially invite the ladies to call and examine our west and most elegant emortment of goods. being assured that at all times they will receive our most courteous and polite attention whether purchasing or otherwise.

Very Respectfully,

Change of Place.

The Odd Fellows have determined to have their dedication ball in the struments, brooms, and other things large V. & T. R. R. freight depot. New flooring will be put down, and share of your patronage. Anything dressing rooms provided, so that not as represented the money willibe they think by this new arrangement refunded. those who attend the ball will be better pleased in many respects.

THERE is not a particle of truth in the rumor that H. M. Yerington, Supt. of the V. & T. R. R. was on the verge of bankraptcy owing to recent heavy depression in mining. True, Mr. Yerington is several thousand dollars loser, but no more than he will, with his resources, be able to replace in a very short time.

ATTENTION is directed to the ad, etc. headed "Dissolu ion Notice." The sufferers will understand the full history of it to their sorrow. Mr. Laycock has assigned everything to the creditors. We hear of many who are out and injured by the sudden departure of Mr. Lucas. He was seen in San Francisco on Saturday.

An assessment of \$3 per share was levied yesterday upon Overman. More rustling for the boys to make good their margins.
